Experimental Uptakes & Secretions by Species — Grouped by Classification
Color: BOTH (blue), 1st-only (orange), 2nd-only (purple) | Shape: Uptake (□), Secretion (●) | Ring: precursor-only

Present in BOTH iterations
Present ONLY in 1st
Present ONLY in 2nd
Uptake marker (shape)
Secretion marker (shape)
Precursor-only (ring)

Pyridoxine □
Vitamins&Cofactors
Pyridoxamine □
Glycerol
Sugars
Glyceraldehyde 3-Phosphate
Hydrocarbons
Uric Acid □
Quinolinic Acid
HeterocyclicCompounds
indoleacetamide
dihydrouracil
NAD
Glycosides
Deoxycytidine
4-acetamidobutanoic acid □
CarboxylicAcids
AminoAcids
Tyramine
Amines
Histamine □
Pantothenic Acid
Vitamins&Cofactors
Niacin
Mannitol
Glycerophosphates
Sugars
gluconic acid
2-phospho-D-glyceric acid
Sarcosine
Peptides
dimethylglycine
catechol
Hydrocarbons
4-hydroxybenzoic acid
Xanthine
Uracil
Orotic Acid
Hypoxanthine
HeterocyclicCompounds
Guanine
Creatinine
5-Methylcytosine
(S)-(+)-allantoin
xanthosine
Uridine Monophosphate
Uridine
Thymidine
Nicotinamide Mononucleotide
Inosine
Guanosine Monophosphate
Glycosides
Deoxyuridine
Cytidine
Adenosine Monophosphate
Adenosine
5'-methylthioadenosine
5'-deoxyadenosine
2'-deoxyadenosine
Vanilmandelic Acid
Salicylic Acid
Quinic Acid
Pyruvic Acid
phenylacetic acid
Mevalonic Acid
Lactic Acid
isocitric acid
CarboxylicAcids
Homogentisic Acid
Citric Acid
alpha-keto-beta-methylvaleric acid
alpha-hydroxyglutarate
Aconitic Acid
(S)-malic acid
(S)-2-hydroxybutyric acid
(R)-3-hydroxybutyric acid
Tyrosine
Sorbitol
Serine
Proline
Phenylalanine
N-acetylphenylalanine
N-acetylglutamic acid
Leucine
AminoAcids
Histidine
Glutamine
Glutamic Acid
Citrulline
beta-Alanine
Aspartic Acid
Asparagine
Arginine
Alanine
gamma-butyrobetaine
Ethanolamine
Amines
Choline
Betaine
gamma-guanidinobutyric acid
Amidines
Creatine
phenylacetaldehyde
Aldehydes
